Manual of Prayers compiled from the devotional writings of Laud and Andrews, Ken and Hicks, Kettlewell and Spinckes, cannot be otherwise than acceptable to all who love those principles which they manimously taught, and for the maintaining of which, (with the **exeption of the good bishop of Wintor, whose lot was cast in tranquil times.) they suffered according to the measure which God required of each; to all who would fain follow them in the paths of self-denial, spiritual-mindedness, meekness and obedience. That this book has been to past get erations, what it is hoped it may likewise be to our own, is evident from the fact that it is one of the few of the devotional works of the seventeenth century, which continued so be in constant demand during the eighteenth. Its value was appreciated, and it continued to be reprinted from time to time to the middle of the last century; and, it is presented to the public once more, with the anxious desire that as it found favor to the last, while Church principles were declining, so it may prove acceptable to the many who (blessed be God) seem now to be zealously and faithfully seeking their way back to the "old paths" from which we have wandered.—Editor's Preface.

New York, October 8, 1842.

Messars. Wright & Co.: Gentlemen—Your extra fine 'Nuvitor Pens,' and extra fine 'American,' have been used by the young ladies of several of the largest boarding schools in this city, as well as by myself, who unitedly attest their apperior excellence. The great desideratum of fineness, elasticity and strength you have in a great degree attained, and were schools and individuals once to give your pen a fair trial, I apprehend they would hardly be induced to use any other.

The above named pens are put up in the very best style, on cards and in boxes, and to be had of the agents of the manufacturers,

FRANCIS'S HIGHLY IMPROVED MANI-FOLD WRITER.—This article has now been before the public but a short time, and has gained a reputation be-yond parallel with any thing ever known, and the many thou-sand copies daily in use is a proof of the high favor they have obtained. It has entirely taken the precedence of the Copying Press; and many of our merchants, after paying from \$25 to \$50 for a Press have laid them aside and given the Manifold Writer the preference, finding them to be neater and more ex-peditious. The Copying Books are done up in a variety of sizes, the paper being ruled or plain, varying in price from \$1 to \$5. Business men and merchants who study economy, will please call and examine the article, and we will guarantee that sizes, the paper being ruled or plain, varying in price from \$1 to \$5. Business men and merchants who study economy, will please call and examine the article, and we will guarantee that it will recommend itself more than a column of advertising. Strangers visiting the city are cautioned against buying from itinerant venders on board steamboats and at hotels, selling a worthless article for a few shillings, at the expense of this truly invaluable article.
